Career Objective: With almost 34 years of experience in the computer and telecommunication industry. I'm looking for a long or short term employment opportunity involved with UNIX, Windows, networking, and security systems, their installation, care, and upkeep. To keep on the edge of technology. To be involved.

Personal Facts: marital status: single
age: 54

Career History: Telecom Bermuda
Consultant/Contractor

June 2010
April 2012

For 1½ years I have been a contract consultant through this company in Bermuda, this was to help my customers from my previous 17ish years in Bermuda with the upkeep on their systems and networks. During this time I had a work permit and spent half of my time in Bermuda and the other working from home in Canada.

Sbi/BCS
(Systems Biasness Integration / Bermuda Computer Services)
Suite 237, 48 Par-La-Ville Road
Hamilton, HM 11, Bermuda
Consultant / Systems and Network Administration / Systems Analyst / Database Support

June 1996
June 2010

Meet with customer, evaluate needs, design systems and networks to meet their requirements, setup, install, and administrate if needed. This includes full NIS, Automounter, and custom backups, ect.... Full Citrix Installation and Support, along with this comes a fairly good working knowledge of NT3.51, NT4.0, Windows server 2000 & 2003. Fully integrated AD, DHCP, WINs, Windows security, and network security. Installation of a range of firewall & security software and hardware for client systems. My experience with shell/cshell/perl has also come in very handy with many projects. This included weighting of programs to do data conversion and translations of data.

Equipment worked with :

Design, configuration and price quotations of Systems from Sun SPARCstation to Intel based PC and Server systems, and integration with other systems & software such as Citrix, NT3.51, NT4.0, Win3.x, Win9x, WinXP, Vista, Win7, Win2k, Win2k3, AIX, HP-UX, ULTRIX, SCO UNIX/ XENIX, LINUX, Solaris, & SunOS.

Other Systems worked with:

All types of PC's & Server (Dell, HP & IBM) in a client server type of environment. Custom built hardware and software for specialty organization like law enforcement, and the telecommunications industry. Cisco Routers & Switches for networking (other brands too, but Cisco is my preferred networking solution), Checkpoint and Sonicwall Firewalls, and Scanners.

Oct 1994
to May 1996

Systems Administrator / Service,Support / Systems Analyst / Sybase, Support / Consultant

Meet with customer, evaluate needs, design systems and networks to meet their needs, order, setup, install, and administrate if needed. This includes full NIS, Automounter, and custom backups, ect.... One of my primary functions involves trouble shooting clients systems and making necessary repairs, mostly hardware related. My duties are in the high end UNIX areas primarily, but as need dictated I help out in the PC end of the companies business as well, ranging from sales to service. My experience with shell/cshell/perl has also come in very handy with many of these projects. Which included weighting programs to do data conversion and translation.

Equipment worked with :

Design, configuration and price quotations of Sun Systems from the SPARCstation 4 to the ULTRA Enterprise 4000, EDI links to Mainframes, OS/2 systems, and integration with other UNIX systems such as AIX, HPUX, ULTRX, SCO UNIX/ XENIX, Solaris, & SunOS.

Other Systems worked with:

All types of PC's (mostly Dell) in a client server type of environment to the UNIX systems, this included loading dual and triple stacks to get the PC's to talk to an IPX/SPX, NetBEUI, and TCP/IP network at the same time. This includes working with Windows 3.1/3.11 Windows for workgroups, Windows 95 and a bit of Windows NT.

Feb 1992
to Oct 1994

Systems Administrator / Service,Support / Systems Analyst / DBA

Meet with customer, evaluate needs, design systems to meet there needs, install, and administrate if needed. The systems installed were mainly used for Document management. This includes full NIS, Automounter, and custom backup programs for both the normal systems disks and the juke boxes systems. These systems are in Bermuda, The Caribbean, and across Canada & the USA. I am also contracted to local company in Bermuda part time, this involves trouble shooting there clients Sun systems and making necessary repairs. My experience with shell/cshell/perl has also come in very handy with these projects.

Equipment worked with :

Design and configuration of Sun Systems, EDI links to Mainframes, OS/2 systems, other UNIX systems such as AIX, HPUX, and ULTRX.

Other Systems worked with:

All types of PC's in a client server type of environment to the UNIX systems, this included loading dual stacks to get the PC's to talk to a Novell network and the UNIX systems at the same time.

Feb 1986
to Feb.1992

Systems Administrator / Service, Support / Systems Analyst / DBA

Technical Support / Systems Analyst / Systems Administrator / part of the Customer Support Group. System Administration is the primary task for the past five years, loading new software, upgrading OS's, making E-mail and uucp connections, writing scripts/programs in Shell, Cshell, and Perl. I cared for a network of 50 UNIX systems and 30 PCs and printers. The technical and customer support duties of my position involves setting up customer sites, some training, and support for the products and customer sites. With this comes a good knowledge of networks, UNIX (BSD & SYSV), XENIX, and DOS. There is also a good knowledge of Shell, Cshell, Perl, and some C and C++.

Equipment worked on :

Systems: 68020, 68030, 386, & RISC CPU systems contained in Sun's line of system from the old 3/60 to the new SPARCStation 10, 4 byte 4 slice processors like Point4's Mark2, 2e, 3, 4, 4e, 6, 9, & 12. ISI's (Integrated Solutions Incorporated) Qbus (68000, & 010), VMEbus(68010, 020, & 030).

PCs of many makes (8088,80286, 80386,80486).

Disk Drives: from many vendors (NEC, Maxtor, Micropolis, Fujitsu, CDC, Seagate, and others) and may types (IPI, SCSI, SMD, ESDI).

Tape Drives: of many types (Northern Telecom, Cipher, Archive, HP, Exabyte, DAT, and others).

Other: Many types of, laser printers, scanners, monitors, terminals, jukeboxes, and some board repair.

BMS - Bermuda MicroSystems
Bermuda

ACE/Server
Certified ACE/Server Administrator
Certified ACE/Server Engineer

SunMicrosystems 1986-1984
Markham, Ont.

Many courses have been taken from Sun. These include Hardware Installation & Maintenance, System upgrade, System Administration, Advanced System Administration, and SunOS 4.1.x to Solaris 2.x Migration. I have attended many seminars throughout the last seven years covering many topics from introductions of new products by the manufacture to technical information sessions.

Sybase Inc. March 1992
Mississauga, Ont

Two database courses were taken Introduction to SQL and Fast Track to Sybase were both completed.

Clark Road Secondary School
300 Clark road
London, Ontario
Principal - Mr. G.E.Ullerick

Graduated with 32 credits: Majored in Electronics.

Personal Traits & Strengths: In closing I have several other qualities such as, being able to read blue prints and schematics, learn very quickly, and pick up programs very easily. I am the type of person that will see a task and complete it or find someone that can, NOT just leave it and hope someone else will do it.

Hobbies My main hobby has been playing with computers. I am also a SCUBA diver. Photography, Home automation, relaxing and enjoying life with friend and family.
